

Boost compliance and reclaim indirect taxes with greater accuracy and speed

As governments become more sophisticated in how they collect both direct and indirect taxes, your organization must elevate its ability to comply with new regulations, prevent tax penalties and fines, and avoid leaving unclaimed tax behind. How can optimizing the integrity of your data help you **improve regulatory compliance and reclaim indirect taxes?**

Complying with changing regulations is essential to avoid fines and reputational risk. You also need to efficiently

Digitalization and rapidly changing taxation regulations have made it difficult for organizations to maximize their recovery of indirect taxes such as VAT. The vast majority of eligible indirect taxes remains unclaimed. Yet understanding where indirect taxes are incurred – and are eligible for reclaim – is good spend governance.

Concur Tax Assurance helps you gain insights into your employee spend so you can maximize your tax recovery accurately and in a timely way. The solution identifies eligible

As your organization expands its operations into new countries that charge indirect taxes at the point of sale, you must also enhance your VAT, GST, and HST compliance and recovery management practices. Concur Tax Assurance offers a centralized, standardized digital process that helps you handle registration in each applicable country and address the requirements of tax authorities there.
